Feedback for Anna (Designer) from Florence (Director):

1) Love the layout and spacing on the About page
    - Note: consider content digestibility throughout this section
2) The landing page content is fabulous
    - introductory image may need refining at a larger scale, as it occupies a lot of space
    - Consider alignment of text and how a consistent structure could be visually appealing for that section below the image
3) Overall:
    - Refine spacing to create a lighter, open feel.
    - Continue with use of green color
    - Very elegant design

Thanks, Anna!!
